THAVINKA DE SILVA

KARTING DRIVER • SRI LANKA

Sponsorship Proposal: 2027 Season

3rd	5.3%	2nd	5
CHAMPIONSHIP	**FASTER BEST LAP**	**BEST RESULT**	**RACES ENTERED**
up from 4th this season	42.273 → 40.040	Speedstar Round 2	Senior category

Who I Am

I'm Thavinka De Silva, a 20-year-old karting driver from Colombo. I race in the Senior category of the Speedstar series at Speedbay Circuit, Port City, one of the entry points into Sri Lanka's competitive karting pathway.

I started karting in 2024, then took a break in 2025 to focus on my studies. I returned for the 2026 season and have taken over two seconds off my best lap and climbed from 4th to 3rd in the standings, all with limited access to practice. My goal for 2027 is to compete for the championship, and with consistent track time, I believe I can get there.

Why Sponsor Me

- **Proven improvement.** Over two seconds off my best lap (42.273 → 40.040) and up from 4th to 3rd in the championship standings.
- **Ground-level entry.** I'm early in my career, so a partner gets in now, before visibility and sponsorship costs rise with results.
- **A clear, ambitious goal.** I'm aiming to compete for the 2027 championship, so a partner is associated with a driver pushing for the title.
- **Committed content.** Race recaps, training footage and results, shared and tagged to partners throughout the season.
- **Real momentum.** Sri Lanka's karting scene has strong sponsorship activity right now, with Würth and Mobil both backing emerging drivers. I want to be part of that wave.

What Held Me Back, and What Changes With Support

My biggest limiter hasn't been ability, it's practice time. Consistent track time turns raw pace into race-winning results, and it's the first thing cut when a season is self-funded.

With sponsor support, that gap closes immediately: more sessions, more data, faster progression, and better results to represent your brand.

2026 Season Record

Round	Date	Quali	Final (start → finish)	Points
R1	6 Feb 2026	P1	P2 → P4	15
R2	10 Apr 2026	P5	P8 → P2	20
R3	26 Jun 2026	P10	P7 → P6	10
R4	21 Aug 2026	P6	P9 → P6	10
R5	2 Oct 2026	P9	P6 → P4	14
R6	13 Nov 2026		Upcoming	

All rounds are held at Speedbay, Port City, Colombo. Looking ahead, I'm exploring a move into the SWS Sprint series at Speedbay, Bandaragama, as a longer-term goal.

Sponsorship Tiers

This is a rental-kart series, so branding lives on me, not the kart: my helmet, race-day apparel and content are what a partner's logo travels on.

Title Partner Highest visibility	• Primary logo placement on helmet (visor strip or crown, the largest and most visible spot) • Branded t-shirt/cap worn at every race and training session • Named as "Racing with the support of [Brand]" in every social post and race recap • Dedicated post introducing the partnership, plus a season-end recap crediting them • One brand appearance / meet-and-greet per season
Performance Partner Strong visibility	• Secondary logo placement on helmet (side or back panel) • Logo on branded t-shirt worn on race day • Named mention in race recap posts each round
Supporting Partner Flexible support	• Small logo placement on helmet or cap • End-of-season shoutout and thank-you post • Ideal for covering a specific cost directly: one race weekend's rental fees, a coaching session, or fuel for a round

How the Tiers Work

- These are starting points, not fixed packages. I'm happy to build a custom package, or structure support around specific costs (a race weekend, a training block, a full season).
- Multiple partners can join at any tier; sponsorship isn't limited to one per level.
- The tiers represent partial season support toward a full season budget, so no single sponsor has to carry it alone.
- Helmet space is limited, so placement is confirmed on a first-commitment basis.
- **Contact me to discuss** pricing and a package that suits your brand.

Where the Investment Goes

- **Practice track time.** Speedbay practice packages give me more sessions on the circuit, which is the quickest way to turn pace into results.
- **Entry fees.** Per-race entry fees for every round of the season.
- **Racing equipment.** A race suit and other racing gear, so partner branding can be carried on my own kit.
- **Recording equipment.** An action camera such as a GoPro or DJI Osmo Action 5, to capture onboard footage and race highlights for partners.
